# BMO to make a big move

20 March 2008

BMO is pleased to announce that we are embarking on an exciting new era! As of today, we have finalised the purchase of larger premises on Drayton Street (formerly Dalby's ten pin bowling alley – the Dog Bowl).

Over the past nine years, BMO has more than doubled its staff. At the time of building our premises in Nicholson Street back in 1999, we had made provision for growth, but never imagined that we would expand as much and as quickly as we have. We have created a family-friendly and flexible working environment with a number of staff working part-time to allow them to meet their family and tertiary study commitments. We are now proud to say we have 35 staff allowing us to offer a range of accounting, business and financial planning services.

After months of exploring many different options, such as extending our current building, we decided that the move to the Drayton Street premises was the most viable option for us. The new premises will allow us to provide more comfortable and technologically-equipped work areas for our loyal staff, in turn allowing them to serve our clients better.

The new building also gives us the opportunity to set up a first-class conference centre. Our plans include several conference rooms to be equipped with the latest technology. The conference centre will be available for BMO staff and client training, but can also be hired out to external parties. We can see this centre answering a real need in our region for professional conference and training facilities.

There will also be separate offices available on the western side of the building (previously occupied by Curves gym) that will be available for long term lease.

It's an exciting time for BMO and our valued clients. Our aim is to create a customer service experience that is second to none. We are designing a building that is comfortable, friendly and welcoming. Not to mention, parking will now be a breeze with ample spaces available off the main road.

We would like to assure you that moving to new premises will have no direct impact on fees. In fact, the efficiencies we create by being in a modernised facility will allow us to continue to provide value for money to our clients.

If you have any ideas or suggestions for our new building, please feel free to email them to our Practice Manager Barry Jordan at [barryj@bmodalby.com.au](mailto:barryj@bmodalby.com.au) or call Barry on 4662 3722.

There is much work to be done before we move in, however we are hoping to be in the building before Christmas. We will keep you updated on the expected opening date of our new office, and look forward to sharing this new journey of BMO's growth with you.

Warm Regards

*Peter, Adrian, Kelvin, Michelle and the BMO Team.*

*Reviewing renovation plans for the new Drayton St business centre – Kelvin Tyler, Adrian Rasmussen, Michelle McVeigh and Peter McKinnon.*

*PS. Our current building at 30-32 Nicholson Street is being offered for sale. If you know of any businesses who may be interested in this building or would like to arrange an inspection, please let us know.*
